

**DR. FRANK CELENZA****WHY DID YOU BECOME A DENTIST**

I come from a dental family. My father and brother are highly regarded prosthodontists

**ALTERNATIVE OCCUPATION**

Engineer, designing cars

**HOBBIES**

Sports-car racing, cycling, skiing, computers and writing

**PLACE YOU GO TO**

**ESCAPE THE OFFICE** On long rides with my bike club

**FRAMED PHOTOS**

**ON YOUR DESK** Children, brother and sisters, my race cars

**ADULT ORTHODONTICS**

Dr. Celenza focuses his cosmetic dental practice on providing orthodontics exclusively to adult patients. Certified in both periodontology and orthodontics, Dr. Celenza is uniquely qualified to effectively manage adult orthodontic cases, which often present a myriad of characteristics that differ from adolescent cases. Whether he uses **INVISALIGN® SYSTEM** or a more-conventional orthodontic appliance, his periodontal background enables him to effectively diagnose, sequence and treat the full spectrum of adult cases ranging from simple cosmetic requests to the rehabilitation of severely mutilated dentitions. He is a pioneer in the combined use of dental implants with orthodontics.

Periodontics

**LOCATION**  
New York, New York

Uniquely certified in both periodontics and orthodontics, Dr. Celenza employs his deep understanding of adult dentition (16 years and up) to custom tailor treatment plans and procedures to each individual and their wide variety of circumstances. Cosmetic procedures from both specialties can be applied to achieve results that may not otherwise be possible. Dr. Celenza also offers the Zoom!™ Whitening system, which achieves excellent results. "Many patients like to whiten their teeth after they complete Invisalign® tooth straightening, or even after more traditional orthodontic procedures," he says.

There are many simple, innovative periodontal techniques that are performed to raise or alter the gum line and better coordinate it with the lip, as well as procedures that cover the root in the case of gum recession. "By combining periodontal procedures along with our hygiene services, we are better able to ensure that the optimum health of the dentition is achieved and maintained throughout and after treatment." 212-327-2623 or [newbeauty.com/celenza](http://newbeauty.com/celenza).
